CARPET ROLLS and TILES
DESIGNED FOR DURABILITY
Heavy traffic areas—such as foyers, hallways, classrooms, locker rooms, fitness centers, day care centers, ice arenas and golf course venues—endure constant impact and even abuse.

IronWeave™ Carpet Rolls and Tiles are the Perfect Low-Maintenance Solution.

With IronWeave™, your facility always looks clean and inviting. Just vacuum daily and immediately remove spills with an absorbent cotton cloth and clean water. Even better, IronWeave™ Carpet Rolls and Tiles are anti-microbial, resistant to water spills, and will not stain or mildew.

Engineered for durability, color retention and wear resistance, IronWeave’s polypropylene fibers are needle punched or individually inserted into a bitumen, waterproof backing, eliminating any possibility of fraying or carpet runs.

Put Our Matting to Work For You!
Boost your brand recognition and retail sales with IronWeave’s state-of-the-art logo and custom matting solutions for indoor and outdoor commercial spaces. Regardless of design requirements or area dimensions, IronWeave™ has the right matting solution for you.

Our versatile TRIPLE-ZONE DEFENSE SYSTEM provides maximum protection for your entryway by reducing your maintenance costs, accident liability, and facility wear and tear.

Features and Benefits for IronWeave™ Rolls and Tiles
• Cleaned by vacuuming or hosing
• Crush resistant
• Easily installed
• Highly resistant to surface abrasion
• Indoor/outdoor usage
• Lay flat/stay flat technology
• Naturally anti-static
• Customizable colors/patterns
• Rolls are perfect for logo or finished mats
• Rolls can be cut into any size/shape
• No edge unravel
• Protects floors
• Reduces floor maintenance
• Stain resistant
• Traps dirt and moisture
• Unaffected by climate extremes
• Thermal acoustic properties
• U.V. stable
• Variety of products for any budget

Features and Benefits for IronWeave™ Matting and Grid Systems
• Cost effective
• Provides safe and attractive entrances
• Decrease maintenance costs
• Relieves fatigue
• Long-lasting
• Improving overall cleanliness
• Reducing noise

A CLEAN SOLUTION TO A DIRTY PROBLEM
Did you know that your facility accumulates one pound of dirt for every 800 people who cross your threshold?

Zone Defense

A well-designed entrance system means a safer, cleaner and more attractive interior. IronWeave’s flooring experts can customize your entrance to provide you the best and most cost-effective solutions in effective entrance matting systems. A single mat system achieves good results, but a three-part entrance matting system provides top performance while letting you save time and money.

By utilizing any of our safety-tested Entrance Zone Defense products, you will:
- Lower your maintenance costs
- Improve air quality
- Create a safer building by reducing slip-fall accidents

Our Entrance Zone Defense System can be a 1, 2 or 3 part system. The more zones utilized, the better the results.

Zone 1 SCRAPE
OUTSIDE SECTION
Scrapes heavy debris from footwear. More than 80% of the dust, dirt and grime is tracked into commercial buildings on footwear. This tracked-in soil affects interior appearance, maintenance costs and air quality (Source: TRSA).

Zone 2 CLEAN
VESTIBULE OR AIRLOCK SECTION
Cleans and absorbs moisture. One square yard of commercial carpeting can accumulate one pound of dirt per week and up to two pounds during wet weather (Source: TRSA).

Zone 3 DRY
INTERIOR SECTION
For every 800 people entering a commercial building, one pound of dirt is left behind. The cost of removing this pound of dirt can easily exceed $600 (Source: ISSA).

A CLEAN SOLUTION TO A DIRTY PROBLEM
Did you know that your facility accumulates one pound of dirt for every 800 people who cross your threshold?

Centaur Super Nop

CENTAUR SUPER NOP Carpet Rolls and Tiles offer our most durable and comprehensive “Berber” style carpet solution. *Wear Warranty is for 3 years in all spike or skate traffic areas, excluding pivot areas.
Olympus

The OLYMPUS Carpet system provides a single-ribbed corduroy product perfect for heavy duty areas, such as libraries, classrooms and churches. This hard-wearing, easily maintained carpet is an ideal, low-cost flooring solution. This floor system is available in 6'-6" or 13'-2" rolls.

Spartus

SPARTUS Carpet Rolls is a heavy, durable carpet system that can be used indoors or outdoors. It is produced in 6'-6" rolls, 82" long, with a 1/2" thickness of textured 2"x4" ribs.

Applications for IronWeave™ Rolls and Tiles

For facilities that require floor covering that must endure heavy traffic, constant impact or even abuse – IronWeave™ Carpet Rolls and Tiles are the right choice. Here are just some application possibilities.

CORPORATE AND INDUSTRIAL
- Entry Foyers
- Hallways
- Fitness Areas
- Vending Areas

EDUCATION
- Class Rooms
- Cafeterias
- Libraries
- Entrances
- Check-in Areas

- Locker Rooms
- Golf Course Venues
- Day Care Centers

RETAIL
- Anti-Fatigue Areas
- Retail Kiosks
- Sales Floors
- Pharmacies
**Champion LP**

CHAMPION LP Carpet Tiles are produced with a “Berber” or diamond design. This design is used extensively in mat form by the world’s largest retail chains and hotel groups.

We offer Champion LP, which is our standard carpet tile range. It is a lower profile tile (3/8”) than our extra heavy duty Champion XP.

**IronWeave™ Komfort Tiles**

Our Komfort tiles are available in a “Berber” texture similar to our Champion Tiles but with a softer polypropylene fiber. The tiles are constructed with a 3/8” foam underpad, providing more Komfort and less body stress for safety.

**Champion XP**

CHAMPION XP Carpet Tiles are the heavyweight option for this “Berber” or diamond design. The XP tile is 7/16” thick with a tough, durable 42 oz. face weight.

Perfect for hospitality, recreational, healthcare and senior facilities.

Additional Products

Olympus Tile
The Olympus Tile is available as a traditional glue-down tile. The 100% solution-dyed polypropylene fiber is needle punched in an attractive corduroy rib pattern.
The tiles are 19.69” x 19.69” and packaged 12 tiles per box – 32.5 sq. ft. per box.
Available in midnight grey color only.

Crisscross Corduroy Tile
This extra heavy duty commercial tile is made with 65 oz. pile weight. It has an attractive cross stitched pattern in a charcoal color with off-white stitch color with Bitumen backing.
The tiles are 19.69” x 19.69” and packaged 12 tiles per box – 32.5 sq. ft. per box.

Governor Anti-Fatigue Tile
Our Governor Anti-Fatigue Tile is produced with polypropylene nylon and polyester blended fiber. This provides a plush velour texture and appearance. The tiles are backed with a 3/8” closed cell foam pad for ideal cushioning and comfort.
The tiles are 19.69” x 19.69” and packaged 12 tiles per box – 32.5 sq. ft. per box.

Komfort Carpet Tile
All the IronWeave™ Carpet Tiles can be produced with our 100% recycled polyurethane foam pad. The 1/4” pad is permanently bonded to the primary tiles and provides a resilient shock absorbent floor system, ideal for active aging facilities, meeting rooms, fitness centers.

Grid Matting Systems
Reducing the possibility of slip and fall accidents at your entryway is a crucial step in facility safety.
IronWeave™ provides grid matting products that prevent these accidents by containing more water, dirt and other contaminants under the surface. These Zone 1 and Zone 2 defense products will keep your entryway looking its best for years. Choose from Power Grid or Premier Grid.

Power Grid
IronWeave’s Power Grid flooring is designed to take the constant punishment of repetitive, heavy foot and cart traffic. This solid vinyl flooring has an open-weave design that is attractive, safe and easy to keep clean. And it reduces cart noise at entryways.
- Vinyl Colors: Black, Brick Red, Dark Grey, Mocha, Midnight Blue, Forest Green; custom colors available
- Construction: Section material is 100% PVC; Thickness: 1/2” (13mm). All Power Grid mats are custom made.
- Installation Options: Can be surface mounted or recessed into the floor. Well should be .5” deep for recessed applications.

Premier Grid
IronWeave’s Premier Grid is both handsome and high-performance. This unique open weave, grid-rib design, with 1.1875” wide carpet strips, withstands heavy foot and wheeled traffic more efficiently than any other matting system. And, it’s now available with the TacFast® backing system.
- Vinyl Colors: Black, Chocolate and Hunter Green; custom colors available
- Carpet Colors: Charcoal, Forest Green, Gingerbread
- Construction: Section material is 100% PVC; Thickness: 1/2” (13mm). All Premier Grid mats are custom made.
- Installation Options: Can be surface mounted or recessed into the floor. Well should be .5” deep for recessed applications.
Entry / Walk-Off / Runner Mats

IronWeave™ carpet rolls can be made into a variety of entry mats, walk-off mats, and long runner mats. All our carpet rolls are 6'-6" wide or 13'-2" wide. We can produce mats up to 82' long. The edging of our mats are glued and sewn with mitered corners. We offer a range of economical walk-off mats in numerous sizes in rib/corduroy and our Hydro mats in 18 beautiful colors. All these mats have an 80 mil vinyl backing.

First impressions are crucial. Why pay hundreds or even thousands of dollars a year to rental companies for mats that look used or don’t communicate your brand?

Your Solution: IronWeave™ Matting

• Custom logo mats boost brand recognition
• Can be customized to fit any size area
• Fortified with a thick, durable “safety track” back, engineered for the heaviest traffic
• Protects any exterior or interior flooring surface by trapping dirt, foot fall debris and moisture in your entrance areas
• Comes with a long-wear warranty
• Saves you money in rental fees, maintenance costs and replacement flooring

IronWeave™ is a leader in providing a diverse range of logo and custom matting solutions for indoor or outdoor commercial spaces. Casual or elegant, large or small, high or low traffic, logo and plain mats are a perfect design solution. No matter what your budget, we have the right matting that will help you boost brand recognition and even retail sales.

Impressions Matting

This printed nylon mat highlights your brand without busting the budget. IronWeave™ uses a 4-color dye printing process that can create nearly any color and image. This durable indoor mat is made with a washable nitrile rubber backing for safety and grip.

Coir/Coco Matting

Natural coconut fibers used in this designer matting project an environmental and health-conscious image that resonates with the public. It’s perfect for entryways and recessed wells, and comes with or without a logo.

Hydro Mat

This durable mat is designed for excessive traffic areas. It’s rubber-backed and cleated to minimize interior floor dirt, snow and water, and comes with or without a logo.

Tough Rib Plain Mats

These mats are engineered for entryways and indoor/outdoor areas that take a lot of punishment. Tough Rib, with 24 ounces of polypropylene fiber per square yard, making this an economical choice.

LEED / Green Label Plus Certification

IronWeave™ — A Langhorn Flooring Concepts Product has received the Carpet and Rug Institute’s Green Label Plus certification by undergoing a rigorous testing process. The Green Label ensures our customers they are purchasing among the lowest VOC emitting carpet on the market.
